

Consultation on Planning Application - **PL/2022/01430/TPO**

Reduce one side overhanging right hand side boundary of oak tree (marked tree 1 on sketch plan 1') by approximately 2-3metres and reshape. Reduce one side overhanging left hand side boundary of oak tree (marked Tree 2 on sketch plan 1). The reason is due to excessive shading over the whole garden resulting in minimal sunlight throughout the year, limiting the ability to grow a lawn good enough for use. Also due to excessive leaves and other debris continually dropping out of the trees causing a large amount of mess and also a danger to children playing within the garden.
